**Spera Partners Announces Ranking on Channel Futures 2024 MSP 501**  
*Tech Industry's Best of the Best in the Managed Services Industry*

Murrysville, PA - Spera Partners has been named as one of the world's top-performing managed service providers in the prestigious 2024 Channel Futures MSP 501 rankings. The Channel Futures MSP 501 list, a technology industry benchmark, ranks companies based on their growth, profitability and innovation.

It is a milestone achievement for any managed services organization to be included on the list. The Channel Futures MSP 501 survey uses a quantitative methodology – developed by a Who's-Who in the managed services industry - to rank companies based on annual and recurring revenue as well as profitability measured by EBITDA.

MSPs that qualify for the list must also pass a rigorous review conducted by the Channel Futures research team and editors. Applicants are rated by financial performance according to long-term health and viability, commitment to recurring revenue and operational efficiency.

Channel Futures is pleased to name Spera Partners to the 2024 MSP 501.

"We are so proud of our team for being recognized for the second year in a row to the MSP 501," said Brian Hess, Founder & President of Spera Partners. "It is an honor to be listed alongside our esteemed MSP colleagues as best-in-industry."

Winners will be recognized on the Channel Futures website and honored during a special ceremony at MSP Summit, Sept 16-19, 2024, in Atlanta, GA.

The MSP 501 represents the best in the technology services industry delivering outstanding vendor and platform neutral advice and value to small, mid-sized and enterprise customers. This year, the MSP 501 generated aggregate revenue of nearly \$25 billion with an average growth or recurring revenue of 19%. Many of their services and technology offerings focus on customer needs in the areas of AI, cloud, security, collaboration, networking, help desk and remote monitoring and management.

"The 2024 Channel Futures MSP 501 winners survived a challenging market and emerged as the highest performing and most innovative IT providers in the industry today," said Dave Raffo, MSP editor and MSP 501 project manager. "The most impressive thing about

the MSP 501 winners is they deliver for their customers every day. These are the most innovative, driven, and successful MSPs in a fiercely competitive industry.”

“For a managed service provider to attain a spot on the Channel Futures MSP 501 everything must be operating at peak performance. This list represents the most productive, profitable, fastest-growing, organizations in the technology industry focused on driving their customers to new heights.” said Bob DeMarzo, VP Content, Informa Channels. “At their core, these are vendor and platform neutral partners focused on doing what is right for their customers.”

The Channel Futures media organization, owned and operated by Informa, is the only channel-centric events, media and research company that can provide such insight into the managed services market.

## **Background**

The 2024 MSP 501 list is based on confidential data collected and analyzed by the Channel Futures research and editorial teams. Data was collected online from February to May 2024. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, profit margin and other factors.
